A Rocha Volunteers is an online account tool that facilitates dedicated candidates through a streamlined, meaningful registration and sign-up process. This tool helps them continually engage with volunteer opportunities, unlocking the organization's future potential to grow into a global scale community.

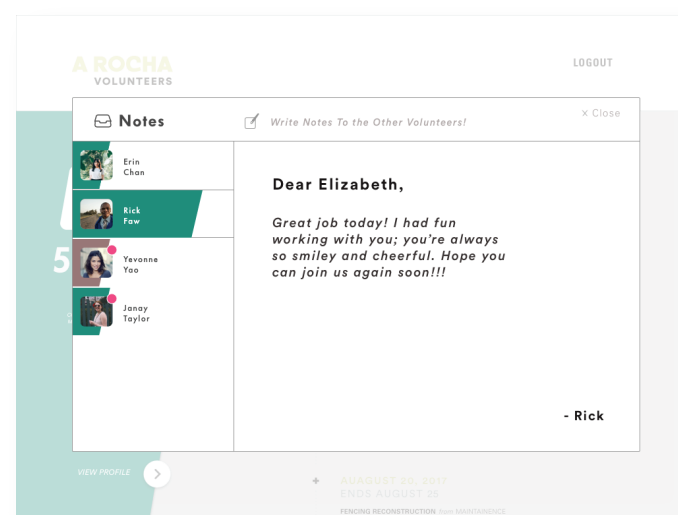

IMMEDIATE DATA TRANSFERING

From a human resource perspective, A Rocha Volunteers helps the administrative side keep track of volunteer activity and working hours. In addition, the account tool provides the ability to immediately share data, giving the organization improved adaptability and better support structure.

MULTIPLE OPPORTUNITY SEEKING APPROACHES

Volunteers are given the freedom to find opportunities based on their own preferences and availabilities. That way, it is more likely for them to discover what they truly aspire to achieve in a much effective and coherent manner.

NOTE FEATURE

It is important for the volunteers to stay engaged and motivated, as they are the primary approach to all A Rocha initiatives. The Note Feature aims to achieve this goal through an engaging post-volunteer experience. The notes provide volunteers with a way to facilitate and nurturing and supportive community with other volunteers.

PRINTABLES

Since the internal system of the organization favours face-to-face interaction between staff, printables are provided for the administrators to deliver volunteer information to the rest of the A Rocha members. This is to preserve the existing culture at A Rocha.

BOTH ONLINE AND OFFLINE ENTRY POINTS

In order for A Rocha Volunteers to reach its full potential, it requires the organization to acquire more volunteers. By having diverse entry points, it not only promotes the account tool, but could also gain an increase in brand awareness which ultimately leads to more interested candidates in volunteering.
